# Agricultural Liaison

Dreweatt Neate and Berrys delivering Project and Property Management across the country

### What can we do for you?

Most infrastructures schemes involve both land access and valuation issues which affect agricultural land. The complexities of Agricultural Tenancy Law, and restrictions imposed by EU legislation, needs careful interpretation by experienced rural surveyors to ensure the needs of both the contractor and farmer are met.

- Provision of Field Officers to liaise between affected parties and contractors.
- Monitoring of accommodation works and progress of works.

- Evaluation and recording of damage resulting from breach of licence agreements.
- Final walk through, preparation of snagging list and closing down of site.
